## Carpark Design Investigation – Stevens Street, Yandina

### Project summary

Sunshine Coast Council is committed to providing safe and accessible parking facilities for our communities. We are considering potential design solutions for a community carpark at Stevens Street, Yandina.

We will investigate the parcel of land at Stevens Street to determine the feasibility and impacts of a potential carpark design.

### Extent of works

During the investigation and design phase, there may be various contractors onsite surveying, locating underground services, traffic counting and carrying out geotechnical or environmental assessments.

Please refer to Figure 1 over the page for the expected location of project investigations.

### Community engagement

We value community feedback and will consider local knowledge as the project progresses through the design process. If you have any feedback to provide Council at this very early stage, please contact our project team via the details below.

Thank you for your understanding as we carry out investigation and design activities in this area.

### Further information

To contact Council's project team please email [InternetMailbox.DesignServices@sunshinecoast.qld.gov.au](mailto:InternetMailbox.DesignServices@sunshinecoast.qld.gov.au) or contact Council's customer service via the details below. (Please quote P-K7664 Stevens Street, Yandina – Carpark Design Investigation.)

A note from your local councillor

Over the past couple of years I have had many discussions with local residents sharing concerns with me about parking in Yandina. I am pleased that with your local support this feasibility study is being carried out to consider if this location on Stevens Street is suitable to be constructed for additional car parking for the town centre. I encourage you to provide your local knowledge and feedback to the design team as this initial work is carried out.

Cr David Law
