Old Gympie Road, Buckle Street, Lacey Lane, Yandina - raised pedestrian crossing

Project summary

Sunshine Coast Council is committed to providing safer pedestrian links for our communities.

We are investigating design solutions (feasibility and impacts) for a new crossing infrastructure upgrade on the Old Gympie Road, Buckle Street and Lacey Lane roundabout. This project aims to enhance safety, connectivity and accessibility for pedestrians. This project is funded under the Vulnerable Pedestrian Program.

During the investigation phase of our project, there may be various contractors onsite surveying, counting traffic and carrying out geotechnical investigations.

Please refer to Figure 1 over the page for the location of current design investigations.

Timing of works

Design investigations are expected to continue to August 2025 and potentially beyond.

Community engagement

We value community feedback and will consider local knowledge as the project progresses through the design process. If you have any feedback to provide at this very early stage, please contact our project team via the details below.

Further information

To contact Council's project team please email DesignServices@sunshinecoast.qld.gov.au or contact Council's customer service via the details below. (Please quote project no. P-K8589.)

A note from your local councillor

I am pleased that the Vulnerable Pedestrian Program that Council introduced this year will be providing this important improvement for Yandina. I appreciate your patience during any obstructions or delays during this early investigation work.
